

# Beauty by Fire

MINISTRIES

Dear Beauty by Fire Ministry Friends,

Words could never express the emotions I feel behind everything that has been done for me and my family. I truly cherish each and every moment and every act of kindness that has been displayed to me.

From the beginning, when the Huntington football team took everything out the house to now, when the project is almost over, I still cannot express what a blessing Beauty by Fire has been.

I am thankful for all the prayers, the food, the gifts, the people, the labor, and the work. I thank God for you. I thank God for everyone who has helped, and I know God has a plan for me. I can say that God has been good to me even when I didn't trust him. Thank you for being the people that he brought into my life.

- Bennetta

As you may know, in January of this year, we began the largest home repair service project Beauty by Fire has ever undertaken, restoring a widow's home damaged from the fire that took her husband. But more than demoing and rebuilding a home, we have been able to love Bennetta and her children while offering hope beyond her overwhelming circumstances. The rebuilding of her home is a physical reminder of the new life that is ahead for this precious family.

COVID-19 presented many challenges and limited our ability to bring volunteers together to serve. We experienced unforeseen costs and extended deadlines, but we pressed onward to fulfill the call in James 1:27. In this final stretch, as we endeavor have Bennetta and her family in their home by year's end, we need your help.

Can you provide Beauty by Fire a year-end gift to help us complete this project this year? We are so grateful for your past partnership with us in our efforts as we serve the widows of the River Region.
